Nurturing

ALFA
NOVA
Accelerating Learning for All

Chosen by the World's Largest School (Guinness World Record)

Nova: A new education for every child.

Can children joyfully learn more in half the time?

After 22 years of research, we discovered that children have much more capacity than traditional systems allow. Imagine kindergarteners reading in both English and their mother tongue, grasping Grade 2 Math, and completing a year's work in half the time!

Is this really possible? Can 'My' school afford?

Without rushing, students produce three times more work while developing creativity, critical thinking, and collaboration. Teachers save time, and students find joy in learning.

Where's the evidence?

ALFA's success is Harvard-documented, expanding from 20 schools in 2022 to 17,000 government schools and the world's largest school—City Montessori School in Lucknow.

IPSATIVE

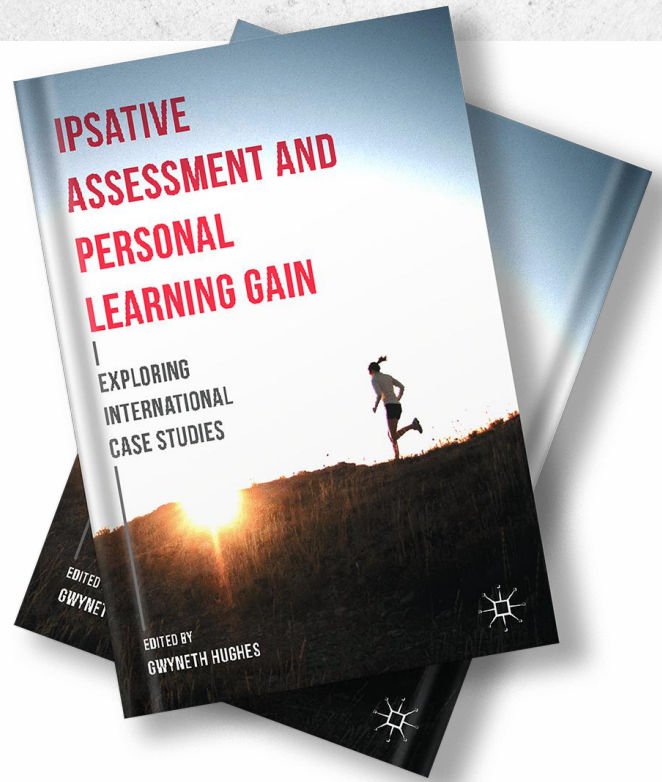

ALfA's Ipsative and reflective practice, helps all children from pre-primary to Grade 12 develop intrinsic motivation and make impressive progress.

Chapter 11 in this book by Dr Sunita Gandhi and edited by Prof. Gwyneth Hughes, IOE, UK, highlights the benefits of ipsative assessment, emphasizing progress against self.

Gandhi, S. (2017). Compete With Yourself (CWY): Maximising Learning Gain in Schools. In: Hughes, G. (eds) Ipsative Assessment and Personal Learning Gain. Palgrave Macmillan, London.

Praise for ALfA

Rajnath Singh

**Defense Minister,
Government of India**

“Dr. Sunita Gandhi’s 30 hour literacy and numeracy model is highly innovative, and highly scalable, that can benefit school children, out of school children and illiterate adults”

Scan or Click the QR code to watch

Rickie Dhillon

**The Superintendent of
Kepler School,
Fresno, California.**

“I am forever grateful for the opportunity you gave Kepler. In 4th grade, we had so many kids who couldn’t write or read. Our 4th grade teachers are the most hardworking and understanding teachers, and they wanted kids to learn and read. My daughter is there in 4th grade, and her reading ability is now getting better each day, her scores improved significantly. Our school is excited, and our growth is accelerating. Everybody is praising the curriculum.”

Mary McCool Berry

**Dyslexia, Reading, and
Instructional Design Specialist**

“Children have a wonderful visualization power and ALfA is one of those innovative programs which engages people from all walks of life because it ensures that you are involved as a recipient of the learning, as a facilitator of that learning and thus is disruptive.”

K. P. Fabian

**Former Ambassador
of India to Qatar**

“This method introduced by Dr. Sunita Gandhi, is Globalization in its best Manifestation, Globalization of Literacy. We urge the government and corporate bodies worldwide to lend support necessary for taking this project further.”

Alok Ranjan

Former Chief Secretary, Government of Uttar Pradesh

“I have been very impressed with the toolkit developed by Dr. Sunita Gandhi, which takes less time to make a person literate, and a less educated person can also become a literacy volunteer.”

TRUSTED & IMPLEMENTED

by City Montessori School, the world's largest school, recognized by Guinness World Records

World's Largest School Recognition 2019 was given to CMS by Guinness World Records.

ALFA'S IMPACT

In the World's Largest School

"This is the particular specialty of the ALFA method: instead of students being passive recipients in conventional approach, the ALFA methodology turns the table entirely. It is collaborative learning, verbalization of one's understanding, invoked creativity, power of expression and with that comes confidence because it is the proactive involvement of the child in their learning."

Prof. Geeta Kingdon

President,
City Montessori School, Lucknow

"The Accelerated Learning for All program (ALFA), is based on a strong academic research foundation of over 22 years. Introduced at City Montessori School for a little over eighteen months, it has effectively laid the groundwork for lifelong learning, critical thinking, and problem-solving skills essential for academic and personal success in our primary children."

Susmita Basu

Head, Innovations Department,
City Montessori School

PARENT TESTIMONIES

As parents we got to know that the ALfA Method is very easy Educational process where the Kids learnt alot through the Home made things & waste things like Ice-cream sticks, match sticks, chart papers, books of previous classes. Kids are very excited to do the home work on daily basis, earlier it was a task to get home work done.

In all 3 Subjects Kids have learnt the things very quickly. The concepts are clear and permanent.

Thank you all the Teachers, specially Rimmi Ma'am who accepted the ALfA challenge for the class learners. Amolika is very lucky that she is part.

Moniya Singh
M/o Amolika Singh, Class 1

Ridhaan has benefitted greatly from ALfA's initiative. It has boosted his confidence and helped him make significant progress by recognizing and nurturing his strengths, setting clear goals, and celebrating his

small achievements. ALfA's commitment to accelerating learning for all is making a real difference in Ridhaan's development.

Nikita Kurkiya
M/o Ridhaan Kurkiya, Class 1

It is devastating to see our children experiencing difficulties in understanding maths. ALfA class makes it easier and interesting and dissolve all

difficulties of my daughter and now she is taking more interest than earlier. Thank you ALfA.

Anzalna Imran
M/o Zeba Akhtar, Class 3H

Hello everyone I am mother of Tanuja Singh class 1. CMS School has developed a method of studying the subject through ALfA module, be it English, Maths or Hindi, it is very interesting and beneficial for the children. Because through this, children are dividing one point

and studying it under different modules, and each point is becoming clear to them. And children are learning in a very interesting manner under the Alpha module. So it is very beneficial for children.

Thank you.
M/o Tanuja Singh, Class 1

ALfA: EVIDENCE FROM HARVARD

BOOK Chapters 8 and 10 on ALfA in India and Maldives

Chapter 8

“84% of the children who completed the ALfA books became capable of reading their own textbooks (after just 40 days)...The results suggest there is significant value in pursuing the ALfA model in other schools.”

“Students in the ALfA group had much higher ORF (Oral Reading Fluency) levels across all grade levels.”

Here is quantitative evidence quoted in two chapters of a book by the Harvard Graduate School of Education, published in March 2023:

A randomized control trial in 20 schools in Shamli, India (later scaled up to 290 schools) showed the following results:

Grade 3: Effect size of 0.23

Grade 5: Effect size of 0.89

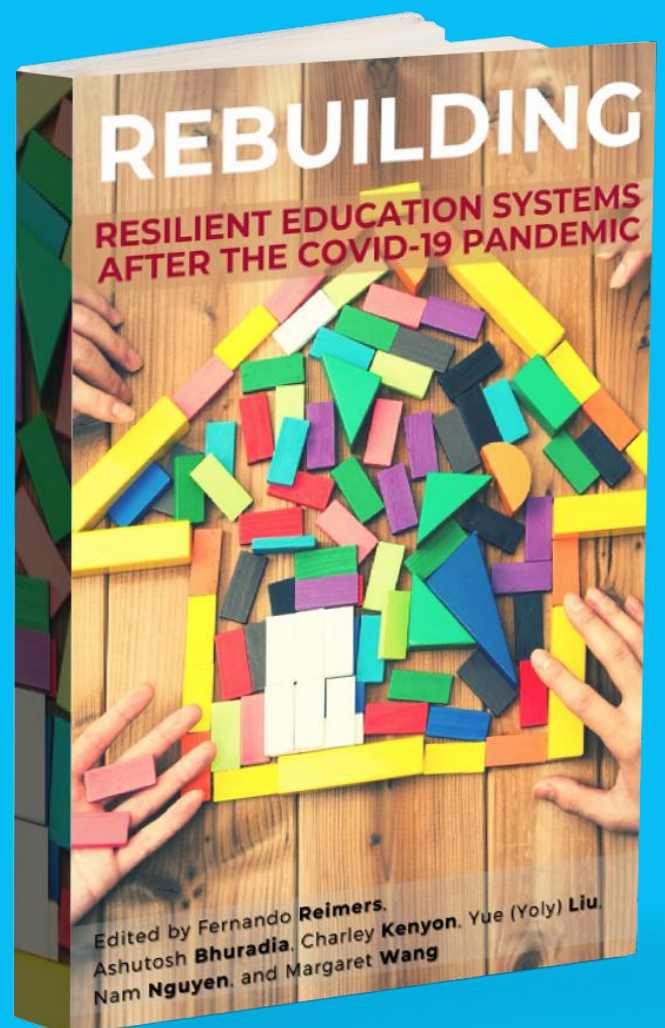

An initial pilot in five schools in the Hamirpur district and 81 schools in Lucknow, India, demonstrated that children learnt 10 times faster than the baseline rate of improvement.

Rebuilding Resilient Education Systems After the Covid-19 Pandemic

Books

Is it possible to build an education system on the twin foundations of both quality and equality? An education that helps children develop these crucial 21st century skills, while also ensuring no one is left behind in terms of foundational literacy and numeracy? Is a future possible where illiteracy, like polio, has been stamped out? Don't miss out on Accelerating Learning for All, a book tackling these questions and offering practical solutions. Whether you are a teacher, policymaker, or concerned citizen, read this manifesto and your view on the education system will never be the same.

DISRUPTIVE LITERACY

A Roadmap for Urgent Global Action

“Drawing from remarkable examples of movements around the world, and sprinkled with stories from the authors’ grassroots educational work in the Global Dream Accelerating Learning for All (ALfA) program, Disruptive Literacy is an easy-to-read but hard-to-ignore manifesto that will touch your heart and inspire you to action. It provides concrete evidence-based solutions for government policy reforms and a powerful call to action for all members of society.”
